

It's like having a guard in each guestroom

SENTINEL

SmartKey

A simple solution to superior guestroom security

The Sentinel SmartKey in-room safe combines the unparalleled security of an industry-leading Elsafe in-room safe at an unbelievably affordable price. With this revolutionary new model, Elsafe introduces an entirely new concept in access technology that is destined to make all metal key safes in the industry obsolete. Its simple design and ease of operation makes it convenient for your guests to use, yet very economical for you to purchase and to maintain. There are no expensive cylinders

to replace if guests lose a key. And the smartcard key system is as easy for your staff as it is for guests. Simply hand guests any smartcard from your pre-programmed stack of cards and it becomes a unique key for that safe. In addition, you'll have the security of knowing that your in-room safes are provided by the worldwide leader in electronic safe technology, proven by over 20 years experience in the industry and backed by the world's largest and most powerful lock group - Assa Abloy. Simply put - it's unparalleled value for money!

FEATURES

- Simple smartcard-operated access system
- Revolutionary locking system with inter-locking deadbolt mechanism
- One piece, cold-pressed curved door is over 70% stronger than flat steel doors
- Extended solid steel bolt hinges for maximum security and durability
- Solid, arc-welded heavy-gauge steel construction and recessed back for superior strength and security
- Anti-tamper, auto relock function
- Three convenient standard sizes available
- Attractive, ergonomic design
- Unique modular construction for easy upgradability

TECHNICAL INFORMATION

With the state of the art security features offered in the Sentinel Series of in-room safes, there is simply no better way to protect the property of your guests at such an affordable price. Based upon the Elsafe industry-leading Infinity Collection that has been widely applauded since being introduced, the Sentinel Series is setting new standards for strength and security, while offering an economical solution that won't break your budget.

ELSAFE'S REVOLUTIONARY LOCKING SYSTEM RESISTS FORCIBLE ENTRY.

ONE-PIECE COLD-PRESSED DOOR IS OVER 70% STRONGER THAN FLAT STEEL DOORS.

ANTI-TAMPER LABYRINTHS PROTECT SENTINEL ELECTRONICS FROM MANIPULATION.

EXTENDED SOLID STEEL BOLT HINGES ARE SECURE AND ULTRA-RELIABLE.
